Mr. Joff Pilon PE
Electrical Engineering Manager
City of Gillette
611 N. Exchange Avenue
Gillette, WY 82716

Dear Mr. Pilon:

Thank you for submitting the City of Gillette's (Gillette) Integrated Resource Plan (IRP) to the Western Area Power Administration (WAPA). The IRP has been reviewed and approved and will be effective until July 1, 2025. Data from WAPA's customers will be consolidated and included in an annual report provided to Congress and others summarizing customers' accomplishments in fulfilling the requirements of the Energy Policy Act of 1992.

Section 905.23 of EPAMP as amended effective July 21, 2008, facilitates public review of customers' IRPs by requiring that a customer's IRP be posted on its publicly available website or on WAPA's website. In order to comply with EPAMP's IRP posting requirement, Gillette must either post its WAPA-approved IRP on its public website or provide WAPA with a PDF version for WAPA to post on its website.

WAPA's Energy Services website (<https://www.wapa.gov/EnergyServices/Pages/energy-services.aspx>) provides extensive information on integrated resource planning and reporting requirements. If you have any questions or require assistance in implementing Gillette's IRP, please do not hesitate to contact Theodore Slavick at (970) 461-7610 or slavick@wapa.gov. For purposes of annual reporting, Gillette's next annual progress report will be due by July 1, 2022.

Sincerely,

David Neumayer
Vice President of Power Marketing
Rocky Mountain Region
